

Winter Driving

Slow down and use caution if you must travel during this upcoming winter storm as road conditions can change quickly. Before you travel, pack a winter survival kit for your vehicle. If possible, consider altering your travel plans.

Fire Safety

Be diligent during this incoming winter storm, our heating, lighting, and cooking activities increase the risk of residential fires.

Carbon Monoxide
Detector

Indoor Winter Safety

Check your smoke/carbon monoxide (CO) detectors. The danger of CO poisoning is greater during winter storms when doors and windows stay closed and fireplaces and gas heaters are in use. You can also be exposed to deadly CO levels when “warming up” your car in the garage or when snow covers your tail pipe.

Outdoor Winter Safety

Use caution when you head outside to work or to play. Each year, emergency rooms in the U.S. treat thousands of injuries related to sledding, ice skating and shoveling.
